ACKNOWLEDGEMENTS

No man can do anything by himself and this is what God intends. There are several individuals whose love has helped me complete this book that I wish to acknowledge.

First, to the precious Holy Spirit of God, I give praise and thanksgiving for experiencing what I can best describe as 'divine downloads' from Him. It's as if I have been one of His scribes.

To my beloved wife, Angela, you are a woman of many talents and gifts. You are a walking blessing who keeps giving to all that are around you. Out of your selfless work you found time to encourage me on this quest, (and others). You were the first to believe in its concept and prodded me to press into this work. Your help in the editing and formatting of this my first work in print is invaluable. You are more beautiful than you know, to me and especially to Papa God.

To my parents, Reginald and Margaret Lee. You have raised six children and nurtured them through the many episodes of their lives, including mine. With many prayers and, sometimes, tough love, you have steadily guided me and them: Regina, Annetta, Jerome, David and Noah. You have stayed faithful to God, the church and to each other for more than fifty years. Thank you for being there and not only for us, but for so many others that call you their spiritual mother and father in Christ.

To Mrs. Mable Pierre, my mother-in-law, you are a great example of strength, feistiness, piety and love. I cannot thank you enough for the gifts, which you have given, especially that of your youngest daughter, my wife Angela.

To Bishop Ronald and Phyllis Carter, who through God's grace helped me to see that I could be more. And that God is more than someone you meet on a Sunday morning but also one who is interested in my everyday existence. You loved me, challenged me and mentored me to live a life for Christ. Though many years have passed, the 'Carterisms' have stayed with me. There is no other couple like you in the Body of Christ.

INTRODUCTION

GOD IS LOVE. It was out of this unique characteristic that caused Him to send Jesus Christ, His only begotten Son, to live among men, to demonstrate His Kingdom and to die on Calvary so that God the Father could redeem to Himself, the objects of His love...you and I. We are now witnessing a season of gross darkness covering planet earth where swift events are causing many to feel confused, rejected, and unsure of their place; which is influencing multitudes to commit senseless acts of hate, violence and perversion. Yet at the same time, an incredible glory is being revealed from Heaven. The nations are about to know God as He really is. The heavenly Father who cares about every aspect of our lives, desires an increase of His holy family through faith in Jesus Christ and the finished work on the cross.

How did this book come about?

Suddenly, my mind was invaded with these literary expressions of love from Papa God about the object of His affection—the nations of men. As He gave me these words during morning prayer in mid-March of 2008, His envelope of love surrounded me with a pure sweet bliss. I was then impressed to share these words of love, which fill this book in the form of poetry, with those who love the Lord with all their heart and soul. My hope is that those who do not know Him and doubt His existence will begin the trek that ends in their becoming a member of God's holy family. *Words of Love* is also a prophetic work in nature. It is a journey that I believe will be thought provoking, challenging and edifying to you, your family and others around you. It refers to the many issues that are on God's heart and I sought to put them in print as best as I could receive them.

While receiving the poems, one of the lessons I learned and I hope you to discover, is that God loves all people and He speaks to them right where they are. You'll find each section of poems focuses on a certain theme, with each poem leading into its next. Find your favorite and understand that the poem was written with you in mind. I pray that our heavenly Father of love leads you into greater devotion to Him and cause you to see mankind in a different light, through Heaven's eyes. May these words of love and this glimpse into Papa God's heart be a blessing to every reader of this book.

God bless you as you begin the journey into this book
